# MAGICSTREAM® LAMINAR

## Featured Highlights

- Microprocessor-controlled LED light source has the ability to synchronize with the IntelliBrite® 5g LED Pool Lighting for dynamic and synchronized colored light shows
- Provides 5 brilliant fixed colors, 7 dazzling light shows
- Choose energy efficient LED lighting for a nearly endless array of color choices. Nighttime lighting effects include the ability to hold on a steady color or scroll through a range of available colors.
- Installation is made flush to your deck or other surface; no unsightly or unsafe edges, just the magic of water erupting from a hidden source.
- Water streams are easily adjusted
- Laminar deck lids are available in tan, black, and gray to match or complement pool deck or other installation surface
- The technical principal behind MagicStream Laminars is to remove all turbulence and air bubbles from the water before projecting it through a finely-machined nozzle. The laminar water flow is very non-turbulent, so it keeps its surface tension and flows through the air in a smooth, clean, unbroken stream, instead of spraying apart into droplets.
- MagicStream Laminars ship fully assembled and ready to install
- Low voltage operation of 12 VAC/16W
- Cord length available in 100 ft. or 150 ft.
- Low flow requirements allow for multiple units per pool
- The perfect complement to IntelliBrite 5g LED Pool Lighting for dynamic and synchronized colored light shows

MagicStream Laminars with 100% synchronization with IntelliBrite 5g LED color and white lights create clear, uniform arcs of moving water that originate from either a pool deck or surrounding landscape. At night, these translucent streams are brilliantly colored, creating a water effect that adds elegant entertainment to your poolscape. It is fully compatible with the IntelliBrite 5g line of LED pool lights, optional IntelliBrite Controller and the EasyTouch® or IntelliTouch® Automation Systems. Custom program and control light shows using an indoor control panel, wireless remote and the ScreenLogic® Interface using your smart phone, computer or mobile digital device.

Deck Jet

MagicStream Deck Jet II

## Featured Highlights

### Deck Jet

- Deck Jet includes five interchangeable water effect eyeballs that are easy to remove and simple to change. Also Includes construction shield.
- Streams reach to eight feet, and direction can be easily adjusted
- Low water pressure requirement for minimum impact on pump performance

### MagicStream Deck Jet II

- Height is adjustable to a maximum of six feet. Water direction is adjustable up to 360 degrees.
- Easy-to adjust nozzles enable your creativity: concentrate all streams into a single entry point, overlap streams of different heights, or create a symmetrical, multi-stream archway...and more
- Quality design assures low water flow requirements and eliminates any concerns about standing water or unwanted debris collection
- Attractive installation with no unsightly or unsafe edges or screws

Deck Jet water effects can be cast into concrete decks and gunite pool walls, mounted in the sidewall of aboveground and vinyl-lined pools, or blended into surrounding landscapes.

MagicStream Deck Jet II creates a graceful arc of water that enters the pool with a gentle splash. The stream seems to appear magically from the pool deck since the jet installs flush and out of sight.
